

WE RELY ON AFTERSCHOOL PROGRAMS – DON'T DENY OR DIVERT AFTERSCHOOL FUNDS!

Like so many others in this community, I think quality afterschool, before school, and summer learning programs are tremendously important to working families, children and youth. They provide homework help, mentoring, field trips, hands-on science, art, community service, job preparation, snacks, physical activity, and similar activities that students need—all with supervision so kids are safe when their parents are at work. Please, support children and working families by increasing funding for afterschool programs and by making sure that afterschool funding goes only to afterschool, before school, and summer learning programs. Thank you!
