I am part of LIU 21st Century Program. I am proud to be part of this program because it helps us in many things, as well it helps us become responsible. This program offers a great opportunity to come together and communicate with other people. As well our program helps us with homework and school projects. I am a volunteer for the Intermediate, Middle and Vida School. I help them with homework and Lesson Plan. I enjoy doing that.

Help Keep Our afterschool programs. Don't take them away. We really need them.

Dear Congress, I really think you should keep our afterschool programs. It helps us with homework, school projects, and reaching our goals in life. I am really proud to be part of all this. It helps us get better grades and it keeps us productive.

Imprint

Gettysburg Pa, 17325

I go to the Imprint program which is through the 21st Century. We do homework and get help when we need it. We do activities like playing games and going on field trips. We go to Hershey Park when we have good attendance. We also do community service at the Senior Center. We also learn respect also.

We need to help the children that are not able to go to afterschool programs like ours

You  Tube™

Dear Congressmen,
We need you to help us to support our afterschool programs. If we do not have afterschool programs ~~after~~ more people will be dropping out of school and the crime rate would increase a lot. We would also have less jobs and lots of schools will close because of bad testing.

Imprint/21st Century
Abbottstown, PA 17301

I go to Imprint/21st Century because I would be bored in home. At Imprint I have something to do and that is beneficial. Like, doing my homework, doing fun activities, going outside, supporting our school team (sports), and going with Gettysburg Imprint to field trips. If Imprint were to go away, I would be sad and bored! I also learned how to make banana pancakes! I would I never learned to do this. Thank you after school programs.

I'm here at After-School Alliance! Going to tell Congress what I think about After-School programs!
Here we go!

You  Tube™

Dear Congressman,
You should keep afterschool programs because I got my talent unleashed there. I wrote a letter to the governor of PA. I would have never wrote that letter! So, if it happened to me it may happen to Others!

Aracely Garcia. 14 yrs. 
Liu 21st Century Program
York Springs, Pennsylvania
Gettysburg, PA 17325

I participate in the Liu 21st Century Program. I go to the program because they help me out with my homework. I have trouble with Science and Algebra 1a and they help me out with that. The program gave me the opportunity to tour colleges and to go to field trips, that I would never think of going to. I've learned to live life to my fullest potential. I've also learned to get along with everyone. I've gotten really close with them, we're like a family. So those are the reasons why I don't want our program to end. 

#Hi!  Please keep the after school programs open. #keeps kids safe. #keeps kids off streets. #keeps kids from drugs. #keeps kids out of trouble. 
#After School Alliance
#important government people. 

To my Congressmen, I say..... Keep our after school programs open!! They help us with our homework and most kids really need the help. Hopefully you understand and listen to me to keep our after school programs open"  Aracely G.
